

LANGUAGE GARDEN HACETTEPE

As İzmir's first language club, Language Garden brings together individuals who have made foreign language a part of their daily lives. Our club, which has quickly gained a large membership, welcomes everyone—from those actively learning a language to those who have completed their language studies, from individuals curious about different cultures to those preparing for language exams or looking to practice their language skills. Our mission is to create an environment where language learners at all levels can speak, share, and experience cultural exchange.

Language Garden operates as a language club with a cafe concept, where language teachers, native speakers, and individuals who have lived abroad and wish to share their experiences meet with those on their language-learning journey.

Partnership Invitation

You can host events for groups of 8 people on any day and time you choose, with a participation fee of either free or between 100 TL - 400 TL, as determined by you. The events will be led by you as the moderator, and we will handle the hosting to make the process seamless.

To create an event, simply inform us of the day and time you'd like to hold it. For event promotion, you will need to provide a short video introducing yourself and inviting participants, or we can assist in filming this video. Your educational background, certifications, and other necessary documentation will be collected to be featured in your moderator profile. Based on this information, we will promote the event on our social media and website; we will also handle participant comments, messages, and scheduling to organize the event on your behalf.

Participation fees will be collected and invoiced through our website. Revenue will be shared 50-50, based on the number of participants, with your share provided at the end of the event. Please note that you are not officially affiliated with Language Garden as staff but are recognized as a moderator organizing the event.

Language Garden operates under Hacettepe Academy Language Courses. Participants who wish to pursue further education will be referred to Hacettepe Academy's course programs. Additionally, moderators who have a degree in language studies and meet our criteria may be offered the opportunity to teach as paid instructors, should participants request further instruction.

If you're interested in organizing an event within this partnership framework, please fill out the Moderator Application Form below and contact our representatives. Language Garden welcomes all partnerships that will benefit those currently learning a language, those who have completed their studies, and anyone interested in continuous practice. For specific requests, additional meetings can be arranged. We look forward to your applications!
